

Welcoming new homeowners of Radium Arena @ Old Klang Road

Radium Sales Gallery welcomed the first batch of purchasers of Radium's newest project, Radium Arena @ Old Klang Road, who came to formalise their homeownership by signing their Sale & Purchase Agreements (SPAs).

This milestone marks an important step in their journey towards owning a home at Radium Arena, a high-rise residential development envisioned to offer contemporary, multigenerational living within the vibrant storied neighbourhood of Old Klang Road.

Catering to upgraders moving out of their family homes wishing to stay within the area as well as young families looking for a strategic home in a well-established neighbourhood, units range from RM415,000 onwards. The units come in a variety of sizes of types, including Type A units measuring 658 square feet featuring a 2-bedroom, 2-bathroom configuration; Type B units measuring 716 square feet featuring a 3-bedroom, 2-bathroom configuration; and Types C and D units that measure 920 square feet, offering 3-bedroom, 2-bathroom, and convertible dualkey layouts.

Radium Arena, with a Gross Development Value (GDV) of RM550 million, sits on 3.03 acres of prime freehold land along Old Klang Road, offering direct access to major highways, and ensuring seamless connectivity to mature neighbourhoods and a host of amenities. With a unique blend of urban comfort, convenience, and sustainable living, the project, which earned the Provisional GreenRE Certification (Gold) for its sustainable design and innovative green features, is targeted for completion in the fourth quarter of 2028.

The weekend event exemplified Radium's unwavering commitment to forging enduring relationships with its buyers, seamlessly blending recognition and community-building initiatives that epitomise the Group's "Rule of 8," particularly emphasising the principles of "Together," "Trust," and "Experiences."
